Price
Changes
as of July 2nd 2022

A note from the founder..

One thing I thought I'd never be, was a business owner. I loved doing brows and meeting new people that then became regular clients to close friends. I thrive on creating connections. As the years have gone on and we are now in our 6th year of Bella Brows in business, I can definitely say I've learnt a thing or two along the way. One of the most important being, when to hold off on a price increase, and when you need one. Over the last couple of years we have all been in the same storm but in all different boats. It's not just small businesses who have struggled and we held off on an annual price increase to ensure we could continue to accommodate for all. We haven't increased our classic brow shaping price since 2018 and with that in mind.. it is time.

Please continue to read below to find out all details and new launches to offer you a way to actually beat the price rise and keep paying the current brow pricing! As we only just changed the lash lift price there will be no increase there.

With Love,
Isabella
